

Dear Sirs,

Recently, I became aware that the FCC may give the new Low Power FM stations priority over the current FM translator stations. I've been listening to one of those stations (K-Love Radio) for many years and it would be a major loss if this station was forced off the air to give priority to LPFM stations. K-Love is an excellent station that provides hundreds of thousands of listeners like myself the opportunity to enjoy quality Christian music - which is rarely available on standard AM/FM stations. They also really help out the local Christian communities by providing information on local events and happenings. So as you consider the best course of action, I would strongly ask that you please do whatever is necessary to keep K-Love on the air. Thank you for your time and efforts regarding this matter.

Sincerely,  
Chris Jackson
